

# The Creative Curriculum for Preschool at Noah's Ark

Noah's Ark follows The Creative Curriculum for Preschool in our Bill Martin Classroom. This curriculum is research based on 5 fundamental principles and directly connects with our assessment and evaluation of each individual child. The classroom is intentionally set up to operate based on the five principles:

- Positive interactions and relationships with adults provide a critical foundation for successful learning.
  - Social-emotional competence is a significant factor in school success.
    - Constructive, purposeful play supports essential learning.
  - The physical environment affects the type and quality of learning interactions.
    - Teacher-family partnerships promote development and learning.

The children will develop social emotional competence; participate in constructive, purposeful play; interact with the environment; and staff will partnership with families.
